

*Marketing Your Business..*

# You have only a few seconds to get noticed!

## So what happens after that ?

Getting noticed is **not** the most challenging part of your marketing efforts. For you to succeed, you must hold the attention of your target market, then motivate them to buy from you. That is what we do at Creative Business Services.

To illustrate the lack of creativity in most marketing, open up the yellow pages in the phone book and take note of how many advertisers in any category all say about the same thing. Very few really stand out!

The same is true of their web sites, flyers, and other promotional materials. This parakeet behavior presents the very opportunity that we will use to your advantage. Your business is more unique than that, so let us help you market more creatively...

...and more effectively.

Contact us right away before this flyer gets lost.
